map of the world, and what is contemplated in order to keep Richmond on the world map, will be told by Charles M. Montgomery, publicity of Mandalay continues to be a-place of chief attraction for the European or American visitor to Burma.

The palace grounds, surrounded by a wall and moat are about a mile and a half square. The buildings have a cheap gaudiness about them which compares in many ways to think-of an American street carnival. Still preserved are the throne rooms and the apartments of the King, the senior Queen and numerous junior Queen Mindon Min, the next to lasse and the apartments of the king, evidently, to discover what the "fifty-seven varieties" are like.

YOUNGSTOWN, OHIO, Aug. 19—
With the shutting down of an additional blast furnace here today, independent from production in the Youngstown district fell to a point lower than the minimum reached in the recent depression period, with plant executives pessimistic as to the fuel supply and doubting early resumption. Finishing and semi-finishing mills continued on active schedule, though two or three of the milk will be idle next week; with the basic from and steel production steadily falling, these mills must close soon. A shortage of box cars it is said to be aggravating the situation.
